magnetic button triangle page 8

magnetic button rectangle page 9

magnetic clips page 11

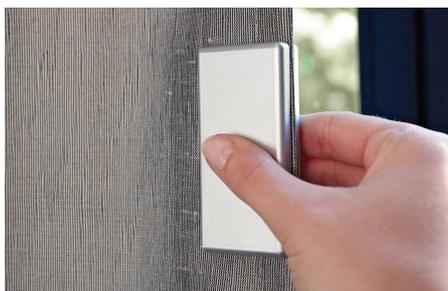

**Safety instructions for the use of decomagnets:**

Keep the decomagnets away from children.

Strong magnetic fields can interfere with electrical equipment, for example: clocks and heart pacemakers. Powerful magnetic fields can wipe magnetic data carriers clean (magnetic tapes, credit cards or diskettes). According to the latest scientific knowledge the decomagnets have no detrimental effect on the health of human beings or animals. Those allergic to the corresponding materials should avoid contact with magnets.

# magnet duo

The multitalent for...

- clean handling
- shirring
- fixing
